

Fast-Track Students to Decode Multisyllable Words

The *Multisyllable Routines Cards (MSRC) Package* includes the *Multisyllable Routine Cards Teacher's Edition* and the *Multisyllable Routine Cards Digital Presentation* that are used collaboratively to amplify engagement and visual accessibility while seamlessly supporting the *MSRC Package* steps and routines.

Decoding multisyllabic words is an essential skill that has a direct impact on reading accuracy, fluency, and the comprehension of text. The task of decoding longer words is often a challenge for many students in grades 3 and above. MSRC helps students solve the mystery of reading multisyllabic words by recognizing patterns, identifying correct vowel sounds, and applying syllable division rules.

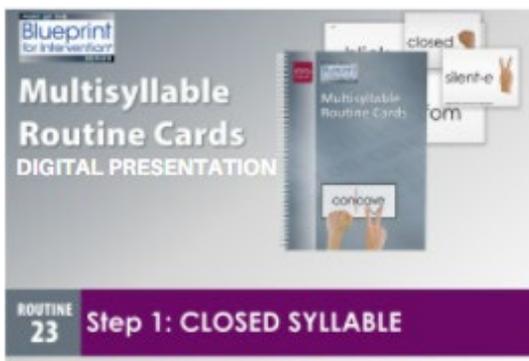

MSRC achieves significant results for students in third grade through high school. The *MSRC Teacher's Edition* includes a set of six multistep routine cards organized in a spiral manual. These routine cards provide direct and explicit instruction offering a fast-track approach to helping students in grades 3 and above become more accurate and fluent when decoding multisyllable words. The routines can be used as a supplement to whole-class instruction or while working with small intervention groups.

Ancillary *MSRC* materials that accompany the TE can be accessed from our secure customer portal (using the code on the inside cover) and include header cards, syllable cards, word cards, pseudoword cards, handouts, and answer keys. We recommend employing the cards when using MSRC for intervention.

MSRC Package includes a renewable Digital Presentation File Subscription

The *MSRC Digital Presentation* is designed to amplify student engagement and visual accessibility, while seamlessly supporting the effective steps and routines. We recommend using the Presentation Files when delivering whole class instruction as the digital component provides a stimulating approach for sharing words so all students can see clearly and actively participate in the lesson.

This animated component is available as a single user, school year-based subscription which must be renewed on an annual basis. The files are accessed via a separate code that will be emailed upon package purchase.

For educators who already use *MSRC* and have seen significant student outcomes, this digital feature provides additional instructional benefits.

MSRC Digital Presentation Files will:

- Allow the instructor to facilitate lessons at an appropriate pace, while maintaining student engagement. For most efficient animation, we recommend using a wireless presenter remote to advance the digital slides, allowing the teacher to move about the classroom during instruction which results in improved student responsiveness.
- Allow instructional flexibility as the digital component can be used in place of the downloadable cards in a whole group setting, while the printed MSRC cards are still recommended for use in small group instruction.
- Align with instructional dialogue and gradual release model presented in the MSRC TE.
- Include a visual for an 'I Do' and 'We Do' that guides students through the process for completing downloadable handouts and reviewing an animated answer key, allowing students to determine their own level of mastery.
- Give teachers the option on Day 5 of each lesson to collect and analyze student data to monitor progress.
- Provide instructional flexibility with lessons being delivered in-class or remotely.

Digital Presentation includes additional Downloadable Resources Application Tasks and Lesson Pacing Guides

The MSRC digital component also provides:

Educator guidance and more rigorous opportunities for using *Student Application Tasks* to assess skill acquisition. The practice opportunities include syllable type word hunts using authentic text, sentence dictation, and phrase reading.

Easy access to the *MSRC Daily Pacing Guides* to reduce teacher prep and improve instructional delivery. The detailed Lesson Guides map each step for all 6 syllable types.

What does a 10-minute lesson using the *MSRC Package* look like in the classroom?

The digital files make your *MSRC* instructional practices more efficient, effective, and engaging for all students. Teachers will be able to implement routines that promote the mastery of multisyllable decoding strategies in powerful, daily 10-minute lessons.

- The first 5-minutes of each *MSRC* daily lesson will begin with the original instruction from the *MSRC Teacher's Edition*.
 - During this time, the *Digital Presentation Files* are utilized in lieu of the smaller downloadable cards. The animated slides, along with the instructional dialogue in the *Teacher's Edition*, allow for smooth instructional transition of the 'I Do' and 'We Do' parts of the lessons.
- The last 5-minutes of the lesson are reserved for application tasks to support mastery of the skill for the day.

Technical Information: The presentation files are programmed in HTML5, making them universally compatible with all web browsers and a wide variety of devices, including PC, MAC, and Chromebook.

If you registered your *MSRC TE* before August 15, 2021, you are eligible to buy the *Digital Presentation* subscription separately PH3300.08.22 | *Digital Presentation*, per Teacher, per School Year; \$39.00. For more information about the *Multisyllable Routine Cards Package* or to order a *MSRC Digital Subscription*, please contact your Sales Representative or sales@95percentgroup.com.

Orders for the *MSRC Package* can be placed in our Web Store, <https://www.95percentgroup.com/shop> or by contacting sales@95percentgroup.com.
